The local banks better their condition every day. It's all coming in and nothing going out.

Dan Patch, the world's greatest pacer, is to try for a new record at the territorial fair. That will be going some.

The Lord never intended that a man should work five days and then rest two. It gives him too much time to brood over what a hard worker he is.

No matter what the street agitator says about his conception of finances, he has money in the bank and knows that it's safe. A man can talk louder with a full stomach than with a wrinkled one.

The banks of the country have invoked an unwritten law in withholding the funds of their depositors, but this is a case of breaking the law and getting praised for it. Some laws are sometimes like bad promises.

## QUICK ACTION DEMANDED

The city health officer has reported to the city council that the quality of milk sold by local dealers is below the standard required by health boards of most of the large cities. If that is the case, more than a rigid investigation is required and no time should be lost by the city authorities in getting at the cause of the poor grade of milk dispensed to the people of Globe and prosecute the dealers on criminal charges if they are found blameable for this condition. No charges have as yet been made but they will probably follow when the city health board ascertains whether the milk is "doped" by the dealers or whether its poor quality results from a diseased condition of the dairy cows. The Silver Belt does not say that either of these is true, but the report of the city health officer is sufficient in itself to warrant us in demanding immediate action.

## RENTS MUST DROP

Rents are too high in Globe. That's not a very startling assertion, nor is it an important piece of news. Globe has for some time been the landlord's paradise, but it won't do, now that wages have been reduced with no chance of a proportionate reduction in the cost of living. No matter how great the growth of Globe will be in the next few years, rents will never be any higher—it would be better to say, not more extortionate—than they are at the present time. Houses have been erected here during the past year and have found ready tenants who paid the owner anywhere from 15 to 30 per cent on his investment. That was because the newcomers flowed into the city faster than accommodations could be prepared for them. The tide has turned, however, and while there are people coming in, some are also leaving, and besides, many new residences have been completed this fall. The pace has been set by one prominent owner of property who reduced his rents 20 per cent beginning November 1, and it is expected that others will follow suit. Ten per cent is a good income on an investment and 12 per cent is considerable. Don't be a hog and ask more.

## THE PRICE OF COPPER

According to our eastern advices, the surplus of copper, said to be about 200,000,000 pounds, is rapidly diminishing. Exports are heavy and a number of large consumers are in the market. One financial paper, the opinions of which is as gospel to many financiers, states that the surplus is about gone. This may or may not be a fact, but if it is, it has been accomplished before the eastern metal market has felt the full effect of the recent curtailment in Montana and Arizona. As the shipments of bullion to the refineries require from two to four months and the reduced shipments have not yet arrived at the refineries. The question then arises: If the present output of the refineries is being consumed, what will happen when the refineries turn out half that amount for a few months? If, to use a slang expression, we have the "dope" figured out, there will be something of a copper famine and prices will again soar. It is safe to predict, however, that there will be no 25-cent copper for some time to come, the recent lesson has been too well learned, and the big producers will discourage any attempt to have a fictitious value placed on the

metal. Prominent authorities on the metal—not those who held that 25 cents was its logical price—believe that the price of the Lake product will rise to about 17½ to 18 cents and Electrolytic to 17 to 17½ cents and remain there. Let us hope so; nothing could be better.

# IN ARIZONA

Geo. D. Brier, aged 85, a pioneer of the Gila valley, died at Safford last week. The body was taken to Denton, Texas for burial.

A case of smallpox is reported at Eureka Springs, Graham county.

Theodore Kruger, failing to comply with a court order to contribute toward the support of his children by a divorced wife, has been sentenced at Solomonsville to pay a fine of \$180 or serve 60 days in the county jail on a contempt charge.

Safford schools will make an exhibit at the territorial fair.

A new drilling rig has been received and work will be pushed on the test well of the Hot Springs Oil company, south of Safford.

Burglars have transferred their operations from Douglas to Nogales.

J. A. Finnegan has been arrested at Humboldt and taken to Williams to answer a burglary charge. Stolen goods were found in his possession.

Over in Yavapai county they are issuing marriage licenses at a rate of a little better than one a day.

The four miners who died at Maricopa as a result of drinking wood alcohol were buried in rough lumber boxes, side by side.

And now Douglas is roaring over the treatment her ball team received at Tucson during the baseball tourney.

Maricopa schools have just received an apportionment of \$25,000.

The contract for building the old Pueblo at Tucson has been awarded the Barber-Bradley Construction company of Los Angeles. Contract price \$37,000.

A smooth young fakir, a stranger in the city, handed councilman Mose Drachman a telegram which he had just received, reading, "Which is slowly sinking, come at once," and requested a loan of \$20. The alderman took the bait and passed over the twenty. Easy mark.

The creditors of the busted brokerage firm of Ducey & Overlock have received their first payment amounting to ten per cent of their claims.

John Hickey, a cement man, was found dead in a tent at Bisbee. Death is supposed to have resulted from natural causes.

Owing to the improved condition of the copper market, work at the Humboldt smelter will be resumed at an early date.

Tucson bankers have decided not to put that city on a certificate basis, at least for the present.

## ORDINANCE NUMBER THIRTY-FIVE

### AN ORDINANCE DIVIDING THE CITY OF GLOBE INTO WARDS.

Be it ordained by the Mayor and Common Council of the City of Globe:

#### SECTION I.

The City of Globe is hereby divided into six wards, respectively bounded and described as follows, to-wit:

The First Ward.—All that part of the City of Globe lying south of Cottonwood Street, extended easterly and westerly to the boundaries of the City.

The Second Ward.—All that part of the City of Globe lying between Cottonwood and Cedar Streets, extended to the east and west boundaries of the City.

The Third Ward.—All that part of the City of Globe lying between Cedar and Kline Streets extended to the east and west boundaries of the City.

The Fourth Ward.—All that part of the City of Globe bounded and particularly described as follows, to-wit: Beginning on Broad Street at the point of intersection of Kline Street extended west; thence northerly along Broad Street to the point of intersection of the Old Dominion Switch known as the "High Line" with the G. V. G. & N. Railway; thence northerly along the said Old Dominion High Line to the City boundary; thence easterly to the Northeast corner of the City of Globe; thence southerly along the east boundary of the City of Globe to the intersection of said boundary with Kline Street extended easterly; thence westerly along Kline Street extended to the point of beginning.

The Fifth Ward.—Beginning at a point on Broad Street in the City of Globe, at the intersection thereof with Kline Street extended westerly; thence northerly along Broad Street to Blake Street; thence westerly along Blake Street extended to the west boundary of the City of Globe; thence southerly along the west boundary of the City of Globe to a point at the intersection of said boundary with Kline Street extended westerly; thence easterly along Kline Street so extended to the point of beginning.

The Sixth Ward.—All that part of the City of Globe lying north of Blake Street and the Railroad Switch from Broad Street to the Old Dominion smelter.

#### SECTION II.

This Ordinance shall go into effect and be in force from and after its passage.

Passed and adopted the 24th day of October, A. D. 1907.

Approved: W. S. SULTAN, Mayor.  
Attest: F. J. ELLIOTT, Clerk.

## DEMENTED WOMAN INVADERS A CHURCH

LYNCHBURG, Va., November 2.—Just before the morning service today at the First Baptist church, of which Dr. Carter Helm Jones, lately of Louisville, Ky., is pastor, a demented woman entered the auditorium, passed over the pulpit and went behind the curtains into the baptistry. The woman made some noise, and occasioned some excitement among the early church-goers. She was finally taken out by two policemen and locked up.

## MAN DROWNED AS HIS DOG SWIMS TO SHORE

KENNEBUNKPORT, Mass., November 2.—Irving Couzens, son of Charles Couzens, aged 30, of Kennebunk, was drowned today by the capsize of his sailing boat while off Great Hill, Kennebunk beach.

Couzens was accompanied only by his dog, which swam ashore after the accident. The boat also came ashore but the body of Couzens was not recovered.

## SLEEPING SIX WEEKS

PATERSON, N. J., November 2.—Suffering from a malady that physicians say resembles "African sleeping sickness," Joseph Koeifus has been in a comatose state in St. Joseph's hospital for six weeks and thus far has utterly failed to respond to treatment. Koeifus was taken to the hospital from Oxford furnace, where he had been employed in the mines. He was in a weak condition, but able to walk. After he had been two days in the hospital he fell into a deep sleep, from which he cannot be aroused.

## BIG WARSHIPS FOR FRANCE

General Staff Favors Keeping Abreast with England and Germany

PARIS, November 2.—The general staff of the navy has decided to recommend the construction of three battleships of 20,000 or 21,000 tons, in order to keep abreast with the large ships building in England and Germany.

The general staff is divided on the question as to whether the main batteries shall consist of twelve 12-inch or eight 12-inch and eight 10-inch guns.

## STEALS 75 CENTS; LYNCHED

Negro Is Mob's Victim after Robbing Two Small Boys

BYRON, Ga., November 2.—Because he robbed two small boys of 75 cents and attempted to rob another of 25 cents, John Walker, a negro, was taken from jail by a mob today, riddled with bullets, and his body burned on a pile of logs which had been gathered by the mob. The lynching and burning occurred in the town, and the charred remains were viewed by a crowd.

## THE BEAUTY QUEST

If your beauty's on the blink All you have to do is think In some transcendental curves, Then if your mug's on the bum Peachy paltritude will come, As such thinking well deserves.

If you're retilinear, Or if you are skinnier Than you should be, get a hump On your cogitations till Presently you'll find you fill Out all curvily and plump.

Very pleasant is this dope, Angular ones full of hope Now are filled—with new designs; But to stop to think of it, How can this be made to fit? Fashion this fall's all straight lines. —Indianapolis News.

## Entire Change Tonight

This is change night at the Iris. Entire new program headed by Swor and Westbrook.

## Notice

Mr. Will Feland being no longer employed by this corporation, parties having business with him for us will please ring up Telephone 441 or see us over Brown's store.
